1. About IIIT-Delhi

Background

Indraprastha Institute of Information Technology Delhi (IIIT-Delhi) was created as a State University by an Act of Delhi Government (The IIIT-Delhi Act, 2007) empowering it to do research and development and grant degrees. The mission of IIIT-Delhi is to be a global center of excellence in Information Technology education, training and research. Its twin aims are:

- To carry out advanced research and development in information technology and in leveraging IT in specific domain areas.
- To train and educate, at both undergraduate and postgraduate levels, engineers of outstanding ability who can become innovators and new product creators.

Institute began with its first batch of 60 B.Tech students in 2008. Since then, it has come a long way with 75+ excellent faculty members specializing in diverse areas of Computer Science & Engineering (CSE), Electronics & Communications Engineering (ECE), Applied Mathematics (AM), Social Sciences (SS), Computational Biology (CB), and Design, and around 1400 students consisting of about 1000 B.Tech students, about 250 M.Tech. students and over 150 Ph.D. scholars. In a relatively short time, it has earned a good reputation in India and abroad as one of the country's leading institute for IT education and research. The Institute is **one of the three institutions in Delhi ranked in top 200 BRICS universities by QS.** The institute is accredited by NAAC at A level and is also approved by UGC and AICTE.

Infrastructure and facilities

IIIT-Delhi has been operating from its permanent campus in Okhla Phase III, since August 2012. The 25-acre campus has facilities for teaching and research, hostels for both boys and girls and provisions for sports. With the completion of Phase II construction, the Institute now has an auditorium and a total of 25 lecture halls of varying sizes. There is one auditorium of capacity 500, two big lecture halls of capacity 300, three lecture halls of capacity 160-180, four of capacity 120, two of capacity 60 and fourteen of capacity 25-50. The lecture hall block has several labs on the second and third floors. The Faculty and Research wing have a capacity of 120 faculty offices and 58 research labs, along with PhD rooms and M.Tech labs. The Library and Information Center has a common study area for students on the ground floor, and a highly equipped library on the first floor.

The Vibrant Dining and Recreation Centre includes the mess, a cafeteria, and facilities for extracurricular activities such as a music room, table tennis and pool tables, an art room, and a gymnasium. The hostel area consists of Boys' and Girls' hostels with a total capacity of about 1780 students. At present the hostels have options of single, double and triple occupancy rooms, all of them are provided with night-time air-conditioning. The hostels also have an infirmary and a well-equipped common room. The new sports complex has indoor courts for badminton and squash and indoor swimming pool with solar water heater. With over 20 clubs to choose from and two extremely popular technical and cultural fests, the students at IIIT-Delhi are highly motivated and holistic in their pursuit of excellence. The institute organizes an independent TEDxIIITD every year bringing the finest young leaders and their ideas worth spreading. Infrastructure to support high-quality research includes an internet access of 1 Gbps bandwidth; a data center with 40 servers and 45TB storage, latest software and peripherals.

About the programs

The Institute is offering admission into six B.Tech programs: Computer Science and Engineering (CSE), Electronics and Communications Engineering (ECE), Computer Science and Applied Mathematics (CSAM), Computer Science and Design (CSD), Computer Science and Social Sciences (CSSS) and Computer Science and Biosciences (CSB)

The B.Tech program in CSB is a new program, being started from the Academic Year 2018-19. The primary objective of B.Tech (CSB) program is to train engineers to ask relevant questions on the interface of computation and biology, and to solve problems using data-driven approaches. More information about the program is available on the Institute website.

Since the current technological era is rich with opportunities for systems integration of technologies from various disciplines to serve the larger goals of society, IIIT-Delhi aspires to provide an environment for interdisciplinary teaching, research, and learning. Our curriculum is flexible and allows students to register in elective courses in 3rd and 4th years from different programs of CSE, ECE, CSAM, CSD, CSSS and CSB. The curriculum of all six programs also includes Social Sciences courses. We believe that our engineering programs provide the necessary depth and broad systems-centric educational experience for long-term success in the emerging cutting-edge industries in the field of IT and engineering.

The curriculum of the first semester is common to all the six programs allowing eligible students to move from one program to the other. The first two years' curriculum comprises mostly of core courses for the disciplines. Unlike a conventional engineering institute where students study science courses such as physics, chemistry, etc. in the first year, IIIT-Delhi students study courses related to programming, hardware, mathematics, as well as communication skills, etc. However, we do provide flexibility to students to study science courses through electives. This allows students to study these science courses according to their interests and aspirations.

For more information on the programs and courses within the programs, please visit the website https://www.iiitd.ac.in/academics/btech.
